TO WHOM IT MAY CONCERN

I have been requested by Ms Mui-Ling Teh to write a letter of reference on her behalf and I do so with pleasure.

I have known Ms. Teh since December of 2004 when she was highly recommended to me by the Visual Arts department staff of her High School. I was inquiring about a talented individual I could engage in designing and drawing a mural.

Ms. Teh and I discussed the particulars and she offered me very imaginative and creative solutions to the project. Her attention to detail and colour was most impressive and she did not compromise on any aspect of the project even though the time frame for completion was relatively short.

She drew the mural entirely free hand from a composite of several posters that I had selected beforehand. I was most satisfied with the finished work and several of those who have seen and admired it have asked me to recommend her for other projects. Before embarking on this project, Ms. Ling invited me to view her portfolio and I found her work was most inspiring.

Ms.Teh impressed me as a very mature and disciplined individual capable of working independently and also very effective as a team player. During the month she worked with me, she was very effective at handling unforeseen situations and showed resourcefulness and creatively. She is trustworthy, ethical and possesses a commendable work ethic. All that said, I found her to be a most intelligent, responsible and personable young lady.

I recommend Ms.Teh strongly and without any reservation. Please feel free to call me for any additional information
