

To Whom It May Concern

Dear Sir/Madam

RE: INTERNSHIP OF MUI-LING TEH REFERENCE

Mui-Ling joined  in January 2009 as Assistant Architect working on  which is a mixed use development.

Mui-Ling joined the project team at the end of the Scheme Design Stage and has been working as part of the London team for the Design Development Stage of the project. Her role involved taking the Client approved Concept and Scheme Design and developing the design further to incorporate new information from the site investigation report, structural design and the MEP design from the sub consultants. During this work, Mui-Ling was also involved in delegating and coordinating drawings with our  office as well as attending meetings with the Client, PM, and other sub-consultants. Some of the work required her to carry out some research in understanding detailing for various components of the building as well as developing the design of the interior floor finishes and other internal elements.

Mui-Ling worked well as part of the project team showing good design skills, knowledge and experience of computer software. She worked diligently as a team member showing initiative where required and showed her ability of working independently whilst asking questions when needed.

I write this reference with satisfaction that Mui-Ling will be a valuable member of any team and I would have no hesitation in welcoming her back to  or recommending her to her future employers.

I wish Mui-Ling a successful future in her career.

Yours faithfully
